

# International Student Scientific Conference in Gdańsk

Get in touch  [issc@gumed.edu.pl](mailto:issc@gumed.edu.pl)

# What is ISSC?

STN GUMed proudly presents The 29th International Student Scientific Conference, a conference created by students, for students from all over the world driven by their passion for scientific innovation. It is a platform designed to bring together young, ambitious and brilliant minds during their formative years of education in health sciences.

# Our Objective

The conference aims to give students an opportunity to share their perspectives on scientific topics with global impact with like-minded peers, feel supported, motivated and acknowledged for their efforts.

Participants are exposed to different research fields and scientific methodologies, which helps broaden and enrich their scientific outlook.

Most importantly, the conference is a great platform for young researchers to present their work to jury members, who are excellent practitioners in their fields.

# WHEN?

11th - 13th April, 2024

# WHERE?

Medical University of  
Gdańsk, Poland

issc

29<sup>th</sup> INTERNATIONAL  
SYMPOSIUM  
SCIENTIFIC  
CONFERENCE

# THEME

HEALTHCARE IN MOTION:  
AI, INTERPROFESSIONAL SCIENCES AND BEYOND

# GDAŃSK

**The 29th International Student Scientific Conference will take place in a city where the young scientists have the opportunity to commit to the advancement of science. Gdańsk is also known for their internationality and openness to innovative solutions.**

**Moreover, Gdańsk impresses with its rich culture, history and architecture, which constitute the best background for our conference.**

# Highlights

## Original Research sessions

Presentations of new discoveries and research across fields of medicine and science.

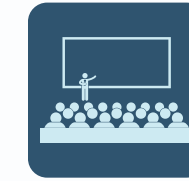

## Case Report and Case Studies sessions

Analysis of rare cases, important factual findings and case studies that can impact the future of healthcare.

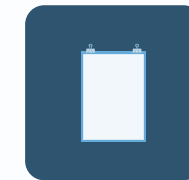

## Scientific Workshops

Interactive sessions designed to learn medical and scientific skills vital to clinical practice and research.

## Keynote Lectures

Expert lecturers share their take on topics of interest based on their extensive medical and research experience.

## Poster sessions

Research presented in the form of texts, charts and graphs which will be displayed for all interested individuals to view and discuss.

# HOW WAS THE LAST EDITION?

Accompanying the scientific sessions, 5 Keynote lectures were presented. Highlights included:

- **'Introduction of innovation to European Pharmaceutical Industry'** - Prof. Paul Grundeman (Netherlands) – the opening lecture
- **'Modern Radiation Oncology'** - Dr. Guilla Marvaso (Italy)
- **'Innovations in scientific research'** - Prof. Milosz Jaguszewski - the closing lecture

**150+**

Participants

THEME

INNOVATION IN HEALTH SCIENCES

**HONORARY PATRONAGE**

RECTOR OF THE  
MEDICAL UNIVERSITY OF GDAŃSK

Prof. Marcin Gruchała M.D., Ph.D.

# Patronages

**UCK**

Uniwersyteckie  
Centrum Kliniczne

**Klub 30**  
Polskiego Towarzystwa  
Kardiologicznego

**PATRONAT**

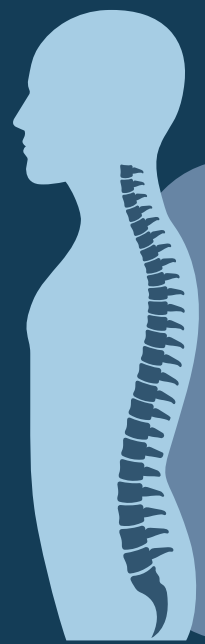

**PTA**  
Polskie Towarzystwo  
Alergologiczne

...and many more

## Lumbar Puncture:

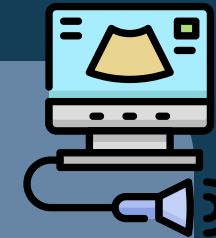

**Dr. Olga Kalużna**  
Resident,  
Neurology Department,  
University Clinical Centre  
Gdansk

**Emergency Medicine**  
Academic Teachers of Emergency Medicine  
Department

## Patient Simulation

Dr. Gądek,  
Doctor and Lecturer,  
Department of Oncology and  
Radiotherapy,  
Medical University of Gdańsk.

**BREAST USG**  
Dr. Sniadecki  
Gynecology Department  
University Clinical Centre, Gdansk

## Clinical Research

Researchers from Servier

## ECG

Paweł Siuciak  
Vice-president of the Scientific Circle of  
Cardiology of MUG  
Head of Organizing Committee of 36th  
Nationwide Student Cardiology Conference

# WORKSHOPS

from the 28<sup>th</sup> edition

**Laparoscopy**  
Surgery Department  
University Clinical Centre, Gdansk

## InnovAid

**Marcin Stolarek**  
Instructor from InnovAid

## Intestinal Anastomosis

Dr Ekman,  
Academic Teacher  
Department of Oncological Transplant and  
General Surgery,  
University Clinical Center, Gdansk.

## Pharmacovigilance

Researchers from Servier

## Statistics:

Dr. Peter Grešner  
Senior Biostatistician  
Division of Translational Oncology  
Medical University of Gdansk

...and many more

# A few words from the organisers

**There is no either-or difference between doctor and AI. The future is just the tandem work bringing out the best in each other to set a new standard in medical care, improve patient outcomes and outpace those who remain in the sidelines.**

**PROF. MIŁOSZ JAGUSZEWSKI**

AMBASSADOR

STN GUMed

# A few words from the organisers

**SHRADDHA SINGH**  
Przewodnicząca  
Komitetu Organizacyjnego

This conference aims to foster the talents of the next generation, playing an essential role in empowering students to lead the way in revolutionizing healthcare.

In today's age, it is important to align ourselves with innovation, education, and the promise of a healthier future. Such opportunities provide possibilities for international collaboration.

**GURSIMRAN GABA**  
Przewodnicząca  
Komitetu Organizacyjnego

**MARIA RENKE**  
Vice-Przewodnicząca  
Komitetu Organizacyjnego

The conference is not just a gathering but a pivotal event shaping the future of biomedical research, spotlighting Gdansk's vibrant scientific community on an international stage.
